hp designjet 815mfp large-format multifunction solution

Consolidate your large-format document reproduction in a single device. Use the HP Designjet 815mfp to copy, scan, and print in color and in black and white. The unit handles CAD drawings, GIS projects, quality graphics, and large-format originals on a variety of media weights and thicknesses. And, the integrated design saves workspace and the intuitive operation means less user training.

integrated

- manage large-format documents from scan through print or archive—a complete, self-contained solution puts a printer, scanner, touchscreen PC controller, and software all in a single footprint
- use the hp designjet 815mfp as a standalone device, or connect into your network for remote scanning and printing; included software and standard network interfaces make network integration simple
- buy with confidence—a fully integrated, one-vendor solution designed and built in the hp tradition with one-stop support

power of possibilities

- high-quality color results—fast, high-resolution scanning and photo quality printing up to 42 inches wide support both technical and graphics users
- robust scanning options—digitize and archive your large-format originals by scanning directly to CD, file, or network; scan to the most common file formats, including .pdf and .tif
- complete copying functionality—make multiple copies, enlarge and reduce, tile or nest—all with copier-like simplicity
- impressive printing options—send files to the included hp designjet 800ps printer, or print remotely to any supported hp designjet printer on your network

intuitive operation

- no training or expertise required—even untrained users can produce great results; the friendly graphical touchscreen display gives you clear, hassle-free operation
- quick and easy results—intuitive software is pre-installed and puts all your scan-print-copy needs right at your fingertips; the calibration wizard ensures consistent performance

HP printing and imaging systems help you create powerful, professional communications easily. Printers, supplies, accessories, digital solutions, and services are designed together to work together and invented to meet your business needs.

hp designjet 815mfp

network connections in both the printer and the touchscreen allow for fast network connectivity and performance

hp designjet 800ps printer creates photo quality output up to 42 inches wide

42-inch scan area captures wide-format images for easy printing, copying, and saving

print output basket accepts scanned originals for fast and easy operation during high volume batch-scanning jobs

integrated footprint for convenient placement in any workplace environment

use the touchscreen graphical display for easy, intuitive operation

CD reader/writer allows you to save office or client files directly onto a disc

integrated keyboard for instant access to the printing network

intuitive software provides easy-to-use scanning, copying, and network printing interface

a choice of solutions for your work environment

hp designjet 815mfp:

a complete, integrated large-format document solution

technical and GIS workgroups can:

- generate on-demand large-format scans, copies, and prints
- make last minute changes or copies for meetings or discussion
- scan and copy in-house without compromising security

service bureaus and copy centers can:

- add a complete large-format solution for copying, scanning, and printing needs
- offer new large-format services for existing customers
- attract new customers with new capabilities

hp designjet scanner 4200:

create a solution with the hp designjet scanner 4200

the hp designjet scanner 4200* can:

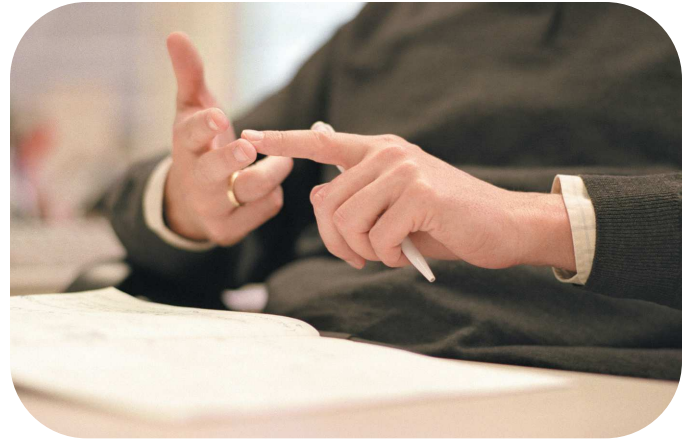

- integrate with an existing hp designjet printer to create a complete scan/copy/print solution
- provide higher copying and printing performance when used with an hp designjet 1000, 5000, or 5500 series printer
- offer greater media flexibility or durability when combined with an hp designjet 5000 UV or 5500 UV printer

* HP Designjet Scanner 4200 (Q1280A) is a scan solution which requires network connection to your HP Designjet printer and a separate footprint.

the hp multifunction advantage

You can count on HP's superior quality and dependability with the HP Designjet 815mfp—a single, integrated solution combining smart software with a scanner, printer, and touchscreen PC for all your business needs.

HP provides a variety of support options to assist you in the setup and maintenance of the HP Designjet 815mfp. Make the most of your equipment and ensure it is running at peak efficiency with HP's expert knowledge. HP offers upgradeable support and service options to maximize the potential of your HP Designjet 815mfp and to accommodate the changing needs of your business.

<p>scanner superior technology for superior results</p>	<ul style="list-style-type: none"> two digital cameras scan at a resolution of up to 424 ppi optical and 2400 enhanced, with 0.15 percent line accuracy full, vivid color with 24-bit color and 8-bit graytone high-speed, 200-dpi color scanning at 1.5 inches per second and 200-dpi monochrome scanning at 3.0 inches per second 	<ul style="list-style-type: none"> scan media up to 42 inches wide and up to 0.6 inches thick, for handling oversized, heavyweight originals—even cardboard color 2D Adaptive Thresholding provides color correction and 2D-filters for color sharpening, image softening, and blur dual 2D Adaptive Gray enhancement technology produces clean, crisp scans even from poor quality originals
